50X1

Attention:

1. Receipt of the following stock is hereby acknowledged:

1	5122277	Hoist Assembly
1	5125787	Beam Assembly
1	4155968	Socket Assembly
1	4128221	Support Bracket

50X1

2. It is not anticipated that an additional Beam Assembly (5125787) will be required for use on this project. The intended use of the one Beam Assembly requested was for preliminary design and development work on a beam assembly that would better fit our particular hoisting requirements.

3. This project eventually will need an additional Hoist (5122277), Socket (4155968), and Support (4128221). Request for this stock will be made at a later date.

4. Attention is called to the fact that no handle or crank was supplied with the Hoist Assembly (5122277). The Douglas reference blueprint shows this call-out of the handle to be:

"AC35B3441 Handle Assembly (Ref.) furnished with
36H5311 Hoist Assembly called for on 5152260 &
-1."

5. Inasmuch as the crank is comparatively simple to fabricate, we intend to take care of this requirement without further request for this item from other sources.

Very truly,

50X1
